

NDIS Progress Note

Participant Support Documentation Summary

Participant	Participant	Date of Support	July 16, 2026
Support Worker	Not specified	Document Generated	July 16, 2026 12:53 PM
Consent Noted	Not documented		

SUBJECTIVE

Mike reported a cold lasting over a week with worsening cough, suspecting a chest infection. He also mentioned experiencing a head injury during a supported activity, expressing concern about its impact on his health and activities.

OBJECTIVE

Confirmed appointment booking for 8:00 AM tomorrow for chest infection evaluation. Documented head injury during supported activity, patient name (Mike), and returning patient status. Noted worsening symptoms and concern about injury.

ASSESSMENT

Receptionist confirmed appointment availability and scheduled for 8:00 AM tomorrow based on patient's preference and medical urgency. Head injury during supported activity requires further assessment for potential impacts on health and participation.

PLAN

Appointment scheduled for 30-minute chest infection evaluation at 8:00 AM tomorrow. Receptionist will confirm booking and provide next steps. Additional support will be arranged to address head injury concerns and ensure safety during activities.

PARTICIPANT VOICE

Mike expressed concern about worsening symptoms and prioritized an 8:00 AM appointment to address his health issue. He also highlighted the head injury during activities as a priority for review.

SUPPORT TYPE PROVIDED

Healthcare Support

RISKS / INCIDENTS

Head injury occurred during a supported activity, requiring assessment for potential impact on health and safety.
