Support Worker	Not specified	Document Generated	July 16, 2026 01:25 PM
Consent Noted	Not documented		

SUBJECTIVE

Sarah reported feeling okay but acknowledged difficulty getting out of the house. She managed to attend the shops twice and used the bus both times, feeling anxious but achieving the goal. She noted the bus was crowded once and required assistance with her grocery list for future trips.

OBJECTIVE

Sarah independently used the bus twice, sat near the front during the crowded instance, and expressed a need for support with grocery list planning. The support worker noted the grocery list challenge for future sessions. A head injury occurred during a supported activity.

ASSESSMENT

Progress toward community participation goals is evident. Anxiety during bus use and the need for assistance with grocery list organization were identified as areas requiring continued support. A head injury during a supported activity indicates a need to review safety protocols and risk management strategies.

PLAN

Next session will focus on addressing grocery list planning to enhance independent shopping trips. Reinforce bus navigation strategies to reduce anxiety. Implement additional safety measures during supported activities to prevent injuries.

PARTICIPANT VOICE

Sarah expressed willingness to continue participating in community activities despite anxiety, and highlighted the need for practical support with grocery list planning. She emphasized the importance of safety during activities.
