

NDIS Progress Note

Participant Support Documentation Summary

Participant	Participant	Date of Support	July 13, 2026
Support Worker	Not specified	Document Generated	July 13, 2026 02:05 PM
Consent Noted	Not documented		

SUBJECTIVE

The participant reported feeling okay but still finds it hard to get out of the house. They did manage to go to the shops twice, which is progress toward increasing community participation. Additionally, they experienced a head injury which may impact their progress.

OBJECTIVE

The participant successfully used the bus to go to the shops, demonstrating progress in transportation and community access. They experienced some anxiety and had to navigate a crowded bus by sitting near the front. The participant also sustained a head injury, which will be monitored and accommodated in future support sessions.

ASSESSMENT

The participant's ability to catch the bus and go to the shops indicates growth in independence and community participation, but still requires support with tasks like creating a grocery list. The recent head injury may require additional support and accommodations to ensure the participant's safety and well-being.

PLAN

The support worker will assist the participant with creating a grocery list during the next session to further support their independence. The support worker will also monitor the participant's recovery from the head injury and adjust the support plan as needed.

PARTICIPANT VOICE

The participant expressed feeling anxious when the bus was crowded but was able to manage by sitting near the front. They also requested help with their grocery list and expressed concern about the impact of their head injury on their daily life.

SUPPORT TYPE PROVIDED

Transportation and community access support

RISKS / INCIDENTS

The participant experienced anxiety during one bus ride and sustained a head injury, which will be closely monitored and addressed in future support sessions.
