

NDIS Progress Note

Participant Support Documentation Summary

Participant	arya	Date of Support	July 26, 2026
Support Worker	Not specified	Document Generated	July 26, 2026 09:08 PM
Consent Noted	Not documented		

SUBJECTIVE

Participant reported having a headache, feeling more angry when around people, and stated they were sleeping. Participant also reported having pain in the stomach.

OBJECTIVE

Brief conversation occurred. Participant shared current physical discomfort and changes in mood when interacting with others. No further observations, actions, or supports provided were documented. Conversation ended with plan to talk next time.

ASSESSMENT

Participant appears to be experiencing physical discomfort, including headache and stomach pain, along with increased irritability around others. Information is limited due to the brief interaction. Further follow-up may be needed to understand the impact on daily functioning and support needs.

PLAN

Follow up with the participant at the next contact to review headache, stomach pain, sleep, and increased anger around others. Monitor wellbeing and explore whether additional support is needed.

PARTICIPANT VOICE

I have a headache and I am getting more angry when people meet. I am sleeping now and I have pain in my stomach.

SUPPORT TYPE PROVIDED

Not documented

RISKS / INCIDENTS

Participant reported headache, stomach pain, and increased anger around others. No incident details were documented.
